

## THE AFFORDABLE SOLUTION FOR COOLING COMPLIANCE

DAIRYCOOL HAYE CHILLER UNITS ARE BUILT TO OUR SPECIFICATIONS TO MEET THE NEEDS OF CANTERBURY DAIRY FARMS.

With industry proven performance and reliability, Hays chiller units from Dairycool are the smart solution to cooling compliance.

## FEATURES AND BENEFITS

- ✓ Compact self contained design
- ✓ Simple installation between milkings
- ✓ Large efficient stainless steel heat exchangers
- ✓ Quality Copeland (USA) compressors and Schneider electrics
- ✓ Cost effective 407c refrigerant
- ✓ High efficiency, low maintenance and very easy to operate
- ✓ Backed by Dairycool's outstanding after sales service 24/7
- ✓ Water or glycol cooling medium to suit your requirements
- ✓ Heat recovery options for free hot water pre-heating

**"WITH MANY UNITS NOW INSTALLED THROUGHOUT CANTERBURY, HAYE CHILLER UNITS FROM DAIRYCOOL HAVE BUILT A REPUTATION AS A NO NONSENSE SOLUTION FOR *TOTAL MILK COOLING COMPLIANCE*".**

## MULTIPLE OPTIONS TO SUIT YOUR DAIRY PLATFORM

- Instantly chill milk to 5°C into the milk silo during milking with high level glycol cooling, or
- Use water cooling for 8°C to 10°C milk entry, with existing DX units chilling milk to 4.5°C rapidly.
- Add a heat recovery option to preheat hot water up to 70°C
