

12th April 2022

Leanne Smith
IXOM Operations Pty Limited
PO Box 900
Auckland 1140

Dear Leanne,

APPROVAL and RECOGNITION of Dairy Maintenance Compound

The product **Monopropylene Glycol** has been considered in conjunction with the independent assessment report provided and determined to satisfy the requirements of regulation 30(3) of the Animal Products (Dairy) Regulations 2005 and regulation 43 of the Raw Milk for Sale Consumers Regulations 2015, when used in accordance with the label.

The product **Monopropylene Glycol** has been assessed and is approved for use in farm dairies and recognised for use in dairy premises when used in accordance with the label instructions.

This approval of the compound is subject to the following conditions:

1. To be used in accordance with label instructions as a heat transfer medium or a coolant
2. Should incidental contact with milk contact surfaces occur, then the surfaces must be thoroughly cleaned and rinsed to ensure no residue remains.

This recognition of the compound is subject to the following conditions:

1. To be used in accordance with label instructions as a heat transfer medium, solvent, humectant, or carrier.
2. There must be at least 1+ heat exchange membrane separation from milk or food at all times.
3. Residues should be within acceptable Maximum Residue Limits as required under Food Legislation requirements.

Where this **approval** is stated on the product label, the statement “MPI approved for use in farm dairies” is to be used, unless an alternative is agreed in writing by MPI.

Where this **recognition** is stated on the product label, the statement “MPI recognised for use in dairy processing” is to be used, unless an alternative is agreed in writing by MPI.

Should this product be determined to be unsatisfactory when used as recommended by the manufacturer or an agent of the manufacturer at the stated dosage, MPI may withdraw this approval and recognition.

Review

This approval & recognition is valid for a maximum period of 5 years but is subject to periodic review and may be withdrawn at any time should the Director-General determine that there is sufficient evidence that the products are not fit for the purpose for which this approval & recognition applies. You will be issued a letter prior to the review date, which is set at **12th April 2027**, but you are responsible for ensuring that this review is completed if you wish to retain MPI approval & recognition of the above dairy maintenance compound.

An invoice for payment is attached.

Yours faithfully

Maree Zinzley
